iPulse Systems appoints Stanley Security Solutions as their South African Distributor

Rivonia, South Africa. iPulse Systems, a local manufacturer of biometric devices announced their decision to appoint Stanley Security Solutions, a leading provider of security integration as their exclusive South African distributor.

“We are excited to have Stanley on board as our distributor. Their national footprint and commitment to the iPulse range of products has set them apart from their competitors, and made them a logical choice for us,” says Gary Chalmers, CEO of iPulse Systems. “Furthermore, we believe that with our expertise in the biometric industry combined with Stanley’s comprehensive knowledge on access control solutions and integration, we have what it takes to grow and revolutionize the security market in South Africa.”

“We at Stanley believe that iPulse offers reliable and durable products at very competitive prices and we are thrilled to be able to offer their product range to our customer base.” says Ronny Bezuidenhout, Sales and Distribution Manager at Stanley Security Solutions. “Stanley is focused on delivering quality products and with iPulse’ local footprint, exceptional local support & rapid repairs & maintenance turnaround, they certainly fulfill this criteria.”

About iPulse Systems

iPulse Systems (Pty) Ltd is a privately owned South African company which is a subsidiary of the dynamic Richmark Holdings group of companies. Founded in 2001, the company has since built a massive installed base of products and has tremendous experience in the design & implementation of biometric systems, software design and access control security.

iPulse Systems has evolved over the years from a traditional original equipment manufacturer (OEM) of biometric and security systems to an industry market leader committed to developing advanced next generation solutions. Technologies used in these systems provide tiered access control solutions, time & attendance coordination, physical & logical security, building management systems and remote management of home & office security – all via GSM and wireless connectivity options.

In addition to this, iPulse Systems specialises in the design, manufacture & support of GSM-based communications, and is one of the largest resellers of GSM modems on the continent.

About Stanley Security Solutions

Stanley's activities are focused on market sectors where they have outstanding products and service benefits, and where their range of products ensures well-managed and secure security and access control environments.

Stanley is different from other security providers in that they offer a unique integrated offering of product technology, service and finance. These three key elements allow them to provide their customers with a complete solution that is flexible in meeting both physical and financial requirements.
