

PRESS RELEASE

TUESDAY, 9 JUNE 2009

iPulse Systems appoints Rentcorp as a Tier 1 Partner

Morningside, South Africa. iPulse Systems, a local manufacturer of biometric devices are proud to partner with RentCorp (a subsidiary of PBS Technologies), business leaders in the provision of Integrated Security and Risk Management Solutions

“iPulse selected RentCorp not only due to their 20 years of experience but also because of their strong and credible reputation and history of delivery. They deal primarily with the maintenance and servicing of electronic security systems and bring with them a tremendous skills base that will definitely benefit our product implementations” says Gary Chalmers, CEO of iPulse Systems. “We feel that together we will be able to deliver superior products, correctly installed with sustainable maintenance contracts into the market place” claims Chalmers.

Francois Breedt, strategic business development manager of RentCorp adds: “We are happy to have been given the opportunity to work with iPulse, they are a fantastic partner who offer high quality products at very competitive prices. Their hardware is durable and reliable and we are confident in their offerings. RentCorp are innovators who consistently challenge the boundaries of security technology advancements and we feel that iPulse share that same passion. Due to their local manufacture & development, constant innovation and customization becomes a reality” concludes Breedt.

About iPulse Systems

iPulse Systems (Pty) Ltd is a privately owned South African company which is a subsidiary of the dynamic Richmark Holdings group of companies. Founded in 2001, the company has since built a massive installed base of products and has tremendous experience in the design & implementation of biometric systems, software design and access control security.

iPulse Systems has evolved over the years from a traditional original equipment manufacturer (OEM) of biometric and security systems to an industry market leader committed to developing advanced next generation solutions. Technologies used in these systems provide tiered access control solutions, time & attendance coordination, physical & logical security, building management systems and remote management of home & office security – all via GSM and wireless connectivity options.

In addition to this, iPulse Systems specialises in the design, manufacture & support of GSM-based communications, and is one of the largest resellers of GSM modems on the continent.

About Rentcorp

Part of the PBS Group of companies established over 40 years ago, RentCorp falls within the Electronics sector of the Group focusing primarily on the design, installation and maintenance of security technology and Automated Risk Management Solutions.

RentCorp provides an extensive product offering, both singularly and as part of an Integrated Security and Management Solution - ISMS which ensures cost effective and efficient delivery of our clients objectives. RentCorp's professional staff, operational capacity and engagement model guarantees high levels of client satisfaction.
